

MUHAMMAD DANISY HAZWAN BIN HAFIZUL FAHRI

Kampung Baru, Kuala Lumpur | +60127211207 | hazwan5646@gmail.com

SUMMARY

IT student with a 3.46 CGPA, specializing in end-to-end application development. Experienced in engineering relational database schemas and leading academic development lifecycles. Seeking a 4 to 6 months Internship starting 3 August 2026 to apply skills in system design and web integration.

EDUCATION

University Kuala Lumpur

2024 - 2027

Diploma in Information Technology

- CGPA: 3.46
- Relevant Coursework: Web Development, Data Structures, System Analysis & Design.

PROJECTS

Final Year Project, Studio Booking Website

March 2026 - Jun 2026

- Database Design:** Engineered a 15-table relational database schema handling user access control, dynamic time slot boundaries and order item lines to eliminate data redundancy.
- Admin Console:** Designed an administrative operational console featuring automated unique booking reference generation (UKL-2026-XXXXX) and real-time payment status workflows ("Deposit Paid" vs "Fully Paid").

EXPERIENCE

Technical Team Lead | Data Structures

October 2025 – December 2025

- Team Leadership:** Led a study group of four students to analyze and visualize complex sorting algorithms, successfully simplifying theoretical concepts for team, lecturer and audience understanding.
- Technical Presentation:** Conducted technical presentations and code reviews, effectively communicating logic and optimization strategies to lecturers.
- Peer Mentoring:** Mentored peers on C++ syntax and logic, ensuring the team delivered the project ahead of schedule with high accuracy.

Lead Web Developer | (Academic Project)

August 2025 – December 2025

- Backend Dev:** Directed the full development lifecycle of a 'Mall Directory System', by supervising team members in database design and PHP implementation.
- Technical Guidance:** Provided technical guidance to team members on MySQL relational schemas, improving the group's overall coding standards and efficiency.

SKILLS

Soft Skills: Team Leadership, Peer Mentoring, Academic Writing
Programming: Java, Python, C++, PHP, SQL, MySQL, HTML/CSS
Tools: Laragon, GitHub, VS Code, Figma

AWARDS & ACTIVITIES

- TopCoder Challenge 2025** (3rd Place University & Top 20 National)
- Huawei ICT Competition 2025** (National Finalist|Cloud Track)

ADDITIONAL INFORMATION

- Languages:** Malay(fluent), English(fluent), Mandarin(beginner).
